

Product data sheet

Room floor heating electronic thermostat

Reference number

IT-001-01

Floor heating electronic thermostat, without frame

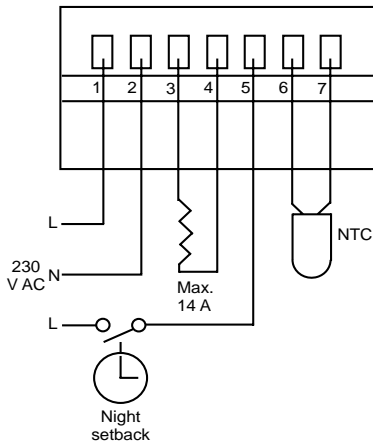

screw fixing only, without claws

Intended use

- measuring and controlling the floor temperature
- room temperature control via floor heating with a limiting function
- installation in flush box according to DIN 49073
- only for use in dry, enclosed rooms
- it comes with 3m. length floor temperature sensor cable

Floor temperature controller: The underfloor heating is turned on when the floor temperature falls below the set target temperature (measured using an external remote sensor).
